

Annual General Meeting
18 November 2010

Presentation by
M.J. Turbott
Managing Director

Disclaimer

This presentation is provided to you for information purposes only and should not be construed as and shall not form part of an offer or solicitation to buy or sell any securities or derivatives. It should not be considered as an offer or invitation to subscribe for or purchase any securities in Austpac Resources NL or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in Austpac Resources NL will be entered into on the basis of this presentation.

To the maximum extent permitted by applicable laws, Austpac Resources NL makes no representation and can give no assurance, guarantee or warranty, express or implied, as to, and take no responsibility and assume no responsibility for, the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omission, from any information, statement or opinion contained in this presentation.

Certain statements may be made herein that use the words “estimate”, “project”, “intend”, “expect”, “believe” and similar expressions intended to identify forward-looking statements. These forward-looking statements involve known and unknown risks and uncertainties which could cause the actual results, performance or achievements of the Company to be materially different from those which may be expressed or implied by such statements, including, among others, risks or uncertainties associated with the development of the Company’s technology, the ability of the Company to protect its proprietary technology, the market for the Company’s products, government regulation, changes in tax and other laws, changes in competition and the loss of key personnel. For additional information regarding these and other risks and uncertainties associated with the Company’s business, reference is made to the Company’s reports filed from time to time with the Australian Securities and Investments Commission and ASX.

**ERMS SR
DEMONSTRATION
PLANT**

Annual General Meeting – 18 November 2010

AUSTPAC
RESOURCES N.L.

Steel Waste Recovery

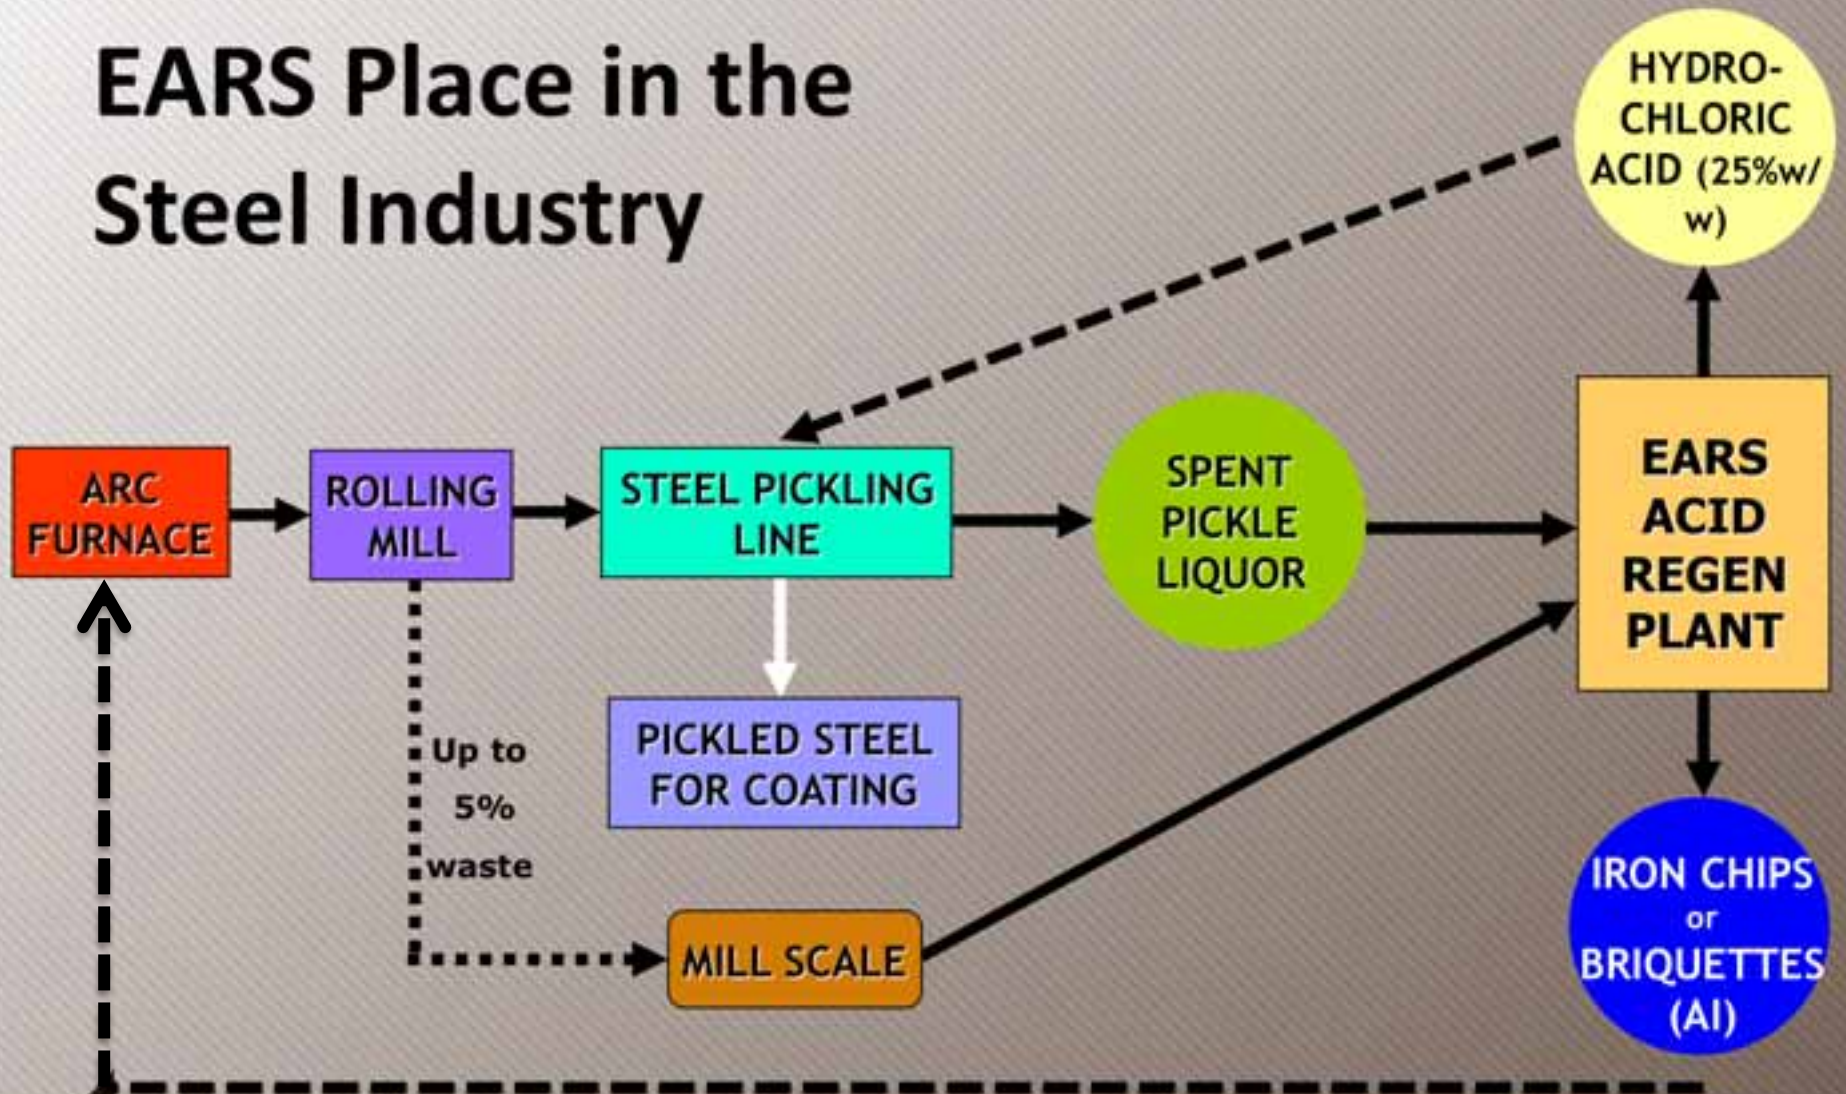

**EARS Section of ERMS SR
Demonstration Plant:
November 2008**

Newcastle Iron Recovery Plant

- Use EARS section of the Demonstration Plant to recycle mill waste from the steel industry
- Convert mill scale (iron oxide) into high grade iron (“Austpac Iron”)
- Convert spent pickle liquor into hydrochloric acid

EARS Place in the Steel Industry

Newcastle Iron Recovery Plant

- **Plant capacity:**
 - Spent Pickle Liquor – 13,000 tpa = 7,200 tpa HCl
 - Mill Scale – 25,000 tpa = 18,700 tpa Austpac Iron
- **Pickle Liquor and Mill Scale available from steel mills**
- **Upgrade required for long-term commercial operation**

Newcastle Iron Recovery Plant

- **Funding for the Plant?**
- **Sale of EL 4521 (WIM150) to Astron – March 2010**
- **Australian Zircon seeks to prevent the sale**
- **Matter listed in WA Supreme Court in mid December**

Newcastle Iron Recovery Plant

- **Supply and Sales Agreements**
 - **CMC Cometals – supply of mill scale and coal, and purchase of Austpac Iron and char (carbon)**
 - **Orica Australia – supply of pickle liquor and purchase of regenerated hydrochloric acid**
- **Development consent – Newcastle City Council**
- **New EPA Licence - DECCW**
- **Plant planning and construction**

Newcastle Iron Recovery Plant

**Austpac Iron
Briquettes**

Kronos Worldwide Inc.

- **Producing TiO₂ pigments since 1916**
- **Originally used Sulfate process; 4 plants, <30%**
- **Late 1970's - Chloride process; 4 plants, >70%**
- **Operations in USA, Canada, Germany, Belgium and Norway**
- **Produces >500,000 tpa pigment, ~10% of world's titanium dioxide pigments**

Kronos Worldwide Inc.

Association with Austpac will:

- **Continue evaluating EARS technology for processing chloride waste from pigment plants (already demonstrated at pilot scale)**
- **Facilitate the development of the Newcastle Iron Recovery Plant**
- **Enable Austpac to operate the Plant to recycle steel mill waste**

Future Direction and Timelines

- **H1 2011 – construct Iron Recovery Plant**
- **H2 2011 – commission and commence operations using steel mill waste**
- **Early 2012 – test bulk samples for Kronos (short programs integrated with ongoing operations)**
- **2012 - follow up interest shown by Titanium metal producers in an ERMS SR plant in Australia**

Production Commences 2011
